

Private Client Services for High Net Worth Borrowers with Loans from \$500,000 and up

I would like to introduce you to Private Client Services, a Marketer of private banking products to high net worth borrowers. The niche jumbo loan products are designed for borrowers that don't fit for conventional lending. Our products are exclusive to private banking and offer much more flexibility and financial options to high income and self employed borrowers. Our goal is to look for and identify qualified individuals that are potential private banking clients, structure a transaction and arrange for the private banking relationship. The products that we structure are created around a high net-worth borrower that may not show personal income and/or have issues with home value according to conventional banking. If you believe you are a candidate for this product and would like the opportunity to discuss your situation or scenario please contact us to arrange a consultation to determine your financing options.
